RE: FCC MB Docket No. 15-149

Dear Chairman Wheeler,

I am writing in support of the proposed merger between Time Warner Cable (TWC), Bright House Networks (BHN), and Charter Communications. Based on the June 25, 2015 public interest statement and public interest report issued by Charter Communication on the proposed merger of Charter Communications, TWC, and BHN into "New Charter," the merger will provide enhanced consumer benefits and advanced technology to the public, and has the potential of bringing more jobs to California.

I believe that the merger of these three companies will improve telecommunication performance and provide better service for subscribers. Charter offers a minimum broadband speed of 60 Mbps for less money than TWC or BHN with clear, uniform pricing across its service area. This broadband speed is available without any data caps, usage based pricing, modem or early termination fees. The newly merged corporation, New Charter, will offer this extremely fast broadband service to TWC and BHN customers regardless of location.

The combined job force of 10,000 employees that the three companies have is impressive and valuable to our economy. New Charter will also return Time Warner Cable call center jobs back to American Soil and will hire and train thousands of new employees for their customer service call centers and field technician operations. Most importantly, New Charter will remain committed to net neutrality and will not block or slow down internet traffic, engage in paid prioritization, and will not impose data caps or usage-based billing.

Charter Communication must present evidence to the FCC establishing that New Charter would foster competition, technological advancement, and economic synergies that will benefit the public. Based on this and the information discussed above, I would urge you to support this proposed merger.

Sincerely,

Anthony Duarte
President,
Hacienda La Puente Unified School District
